

REFERENCE TEMPLATE

Use these templates to help you record all the important reference details for the books, journal articles and internet sources that you find for your study. You can also note down some keywords you used to find the information, and other details that might remind you where to find it again if necessary (e.g. a call number, or web address).

Once you have all the details, you can then adapt it to suit the referencing style you need to use for your reference lists (e.g. QUT APA, or QUT Harvard).
